Yellowstone Capital LLC & Financial Technology

Merchant cash advance companies are increasingly having to worry about merchants perpetuating against them acts of fraud. Yellowstone Capital LLC, has recently upped its efforts to stop fraudulent merchants in their tracks. F

The fraudulent activity typically takes the form of merchants defraud the lending companies by borrowing money but never intending to pay it back, but it can also take on other variations. The damage can be so severe that the lending company is sometimes forced out of business.

Schemes to defraud merchant cash advance lenders often involve:

- Using false documentation to appear as a creditworthy
- False claims of bankruptcy
- Illegal attempts to manipulate the lender into reducing the monthly payments
- Stolen identifications

Yellowstone Capital LLC has committed itself to combating fraud and scams of all types against lenders by incorporating the latest financial technology to protect the company and its clients.

Yellowstone Capital LLC and ISO Relations

As both a directed source of funding and the country's largest ISO network, Yellowstone Capital LLC has numerous in-house funders that concentrate on specific industries/businesses, while also having numerous funding partners within the MCA industry who fund alternative financing deals.

The job of an ISO, or Independent Sales Organization, is to represent small businesses to funders. The ISO acts as the “agent” or liaison between the business and the funder, making a commission in the process. As seen from Yellowstone Capital LLC reviews about the company, respondents claim overwhelmingly that the company values its ISO partners.

Partnering with Yellowstone Capital LLC as an ISO means:

- ISOs make higher commissions
- ISOs close more deals
- ISOs receive ongoing support
